

Proof of Qualifications – Basic requirements – Master’s Programme Psychology

Before submitting your proof of qualification, please ensure that you have carefully read the basic requirements and explanatory notes available on our [website](#) under Application and Admission.

Once you have read and understood these guidelines, you may proceed with the following steps:

Step 1: Identify your type of prior education

Tick the box below that corresponds to your type of prior education. Check if you need to continue step 2 and 3.

Step 2: Complete the tables with the required basic qualifications

Fill in the tables provided, ensuring you include all relevant information.

Please take note of the following important instructions:

- a) You must have passed all listed courses in order to meet the requirements.
- b) If you have not yet received all your grades, you may also include courses you have not yet completed. In that case, indicate **NFY** (Not Finished Yet). Please make sure that course descriptions are available for these courses.
- c) You are permitted to list the same course under multiple qualification areas, provided that:
 - The total number of ECs for that course is divided across the relevant areas.
 - You decide how to divide the ECs, as long as the total ECs per course are not exceeded. You must always indicate the total EC value of the course in parentheses.

Step 3: Submit official course descriptions

- Provide official course descriptions for all courses listed in Step 2.
- Each course description must include the course literature.

Your application will only be considered complete once all course descriptions have been provided.

Your request is only completed when you follow all the necessary steps.

Step 1

Indicate what degree you have completed or will complete prior to the start of the programme:

☐

Bachelor’s degree in Psychology from the UvA or another university in the Netherlands, or Bachelor’s degree in Psychobiology from the UvA, or the ‘UvA Kwalificatieprogramma’ within the bachelor of Applied Psychology at the Hogeschool van Amsterdam

You do not need to complete the rest of the form. Upload this form and proceed to the Proof of Qualification – track specific requirements.

☐

Pre-master’s programme Psychology from the UvA

Please add your pre-master decision letter to this form. You do not need to complete the rest of the form. Upload this form and proceed to the Proof of Qualification – track specific requirements.

☐

Other programme than mentioned above

Please complete step 2 and 3 (the rest of this form), before you proceed to the Proof of Qualification – track specific requirements.

Step 2

Enter the course name, number of EC and grade in the appropriate columns. The course name and the grade should exactly match the data on your transcript.

Follow the instructions provided at the first page carefully.

Name	
Student number	

I have completed or will complete the following courses:

Requirement A. ≥ 5 EC Basic knowledge of Psychology on level year 1

Course name	Amount of EC ¹	Grade

Requirement B. ≥ 24 EC Methods and Statistic courses in Psychology or Social Sciences of which ≥ 21 EC on quantitative research

Please note:

If you do not fully meet this requirement but have obtained at least 18 EC, it is possible to take a 6 EC Methods & Statistics course with us as part of a pre-Master's programme.

Applications from candidates who have obtained fewer than 18 EC cannot be considered for application.

Course name	Amount of EC ¹	Grade

¹ If you list the same course under multiple qualifications areas, make sure you always indicate the total EC value of the course in parentheses.

Requirement C. ≥ 9 EC (at least) One empirical research project (of ≥ 9 EC) about which you wrote an individual report on a Psychological or related Social Science subject.

Please note:

1. If you do not meet this requirement, we will not be able to process your application. It is not possible to follow a pre-Master's programme for this component.
2. A literature review does not suffice; you must have carried out empirical research, i.e. collected and analysed data.
3. If this report is not written in Dutch or English, please add an English translation in step 3.

Course name	Amount of EC	Grade

Step 3

Next, include official course descriptions for all courses you list in the table. Make sure the descriptions include course literature. If the literature is not mentioned in the course description, add it separately by listing the name and author of the book. Attach your undergraduate thesis, undergraduate project, abstract, or approved research proposal.

Course descriptions (That supports requirements A and B)
